

Jabra GN

The Jabra Biz 1100 Engineered for the cost-conscious contact center

The Biz 1100 is an affordable, professional corded headset for intense call centric environments

Tough design that won't let you down

Demanding contact centers need headsets that can survive intense use – all-day, every day. The Biz 1100 is built with durable materials and features a 270° flexible spin boom arm that can be rotated without the risk of breaking.

Affordable, entry-level model

Engineered for cost-conscious call center markets, the Biz 1100 offers all the basic call centric features for professional-sounding calls.

Professional sound

With noise cancellation technology to reduce background noise, the Biz 1100 powers great-sounding calls, even in noisy call center environments.

Connection and wearing style options

The Biz 1100 range offers mono and stereo models, and a choice of USB and QD versions. USB versions come with an intuitive control unit for greater call control.

At a glance:
